- Public pages:       

Positions

Present

Associate professor - Eötvös Loránd University (ELTE), Department of Genetics

H-1117, Pázmány Péter stny. 1/C, Budapest, Hungary

- 2025 - present: *Role:* Teaching various bioinformatics courses to biology master and graduate students. Supervising undergraduate and graduate students. Coordinating the Molecular Genetics, Cell- and Developmental Biology specialisation.
- 2019 - 2025: assistant professor
- 2009 - 2019: assistant lecturer

- 2007 - 2009: scientific research associate

Research fellow – HUN-REN¹ Biological Research Centre (BRC), Institute of Biochemistry, Szeged

H-6726, Temesvári krt. 62, Szeged, Hungary

- 2016 - : Investigating the evolution of antibiotic resistance and virulence using phylogenetic and comparative genomics approaches in Balázs Papp's Lab, from 2020 as a project leader.

Research fellow – Hungarian Centre of Excellence for Molecular Medicine (HCEMM), Metabolic Systems Biology Research Group, Szeged

- 2019 -

Research fellow – HUN-REN Office for Supported Research Groups, Budapest

- 2025 -

Formerly

Postdoctoral researcher – Univ. of Veterinary Medicine (Vet-Med Uni), Institut für Populationsgenetik, Vienna, A

- 2012 - 2014: Analysing the RNA-seq data of thermal adapted fruit fly populations in Christian Schlötterer's Lab.

Diplomas & Degrees

- **Habilitation:** ELTE, Budapest, H, 2023
- **PhD:** Biology Doctoral School, Theoretical and Evolutionary Biology Doctoral Programme, ELTE, Budapest, H, 2012
- **Bachelor and Master:** Majoring in Applied Zoology, Faculty of Veterinary Sciences², Szent István University, Budapest, H, 1999 - 2004

¹Formal names: Research Network of the Hungarian Academy of Science (HAS); Eötvös Loránd Research Network (ELKH)

²Formal and actual name: University of Veterinary Medicine

Awards & Scholarships

- Outstanding scientific publication award from Excellence Fund of Eötvös Loránd University, 2024 and 2022, Budapest, H
- Junior fellowship at Collegium Budapest – Institute for Advanced Study, 2009, Budapest, H
- Scholarship of the Fac. Veterinary Sci., Szent István Univ., 2003 - 2004, Budapest, H
- 2nd Prize of the Conference for Student Scientists at Fac. Veterinary Sci., Szent István Univ., 2003, Budapest, H

Grants

- **Supported Research Groups Programme 2025 - 2027:** *Role:* co-applicant; *Title:* Genomic surveillance for precision therapies against antibiotic-resistant bacteria; *PI:* Balázs Papp; Number: TKCS-2024/66; amount awarded to ELTE: 30,000,000 HUF
- **ELTE international online courses 2025 and 2026:** the “Analysis of OMICS Data PR” was selected as a course in [CHARM-EU](#); 2 × 500 000 HUF
- **Hungarian National Research Fund Grant – Postdoctoral Excellence Programme 2020 - 2023:** *Role:* Principal investigator; *Title:* How do ‘superbugs’ emerge? - A systematic study of the mobility of resistance and virulence genes in human microbiota and pathogenic bacteria; Nr. [131839](#); 25,500,000 HUF
- **Promoting Excellence in Education, ELTE 2020:** *Role:* Principal investigator; *Title:* Development of the infrastructure of the computer practical room; 4,000,000 HUF
- **Visegrad 4 Eastern Partnership (V4Eap) 2014 - 2015;** *Role:* Supervisor; Connected to the fellowship of Zeljko Popovic; *Title:* DORMANCYbase – developing a database on gene and protein expression during dormancy in animals; 3,000 EUR

Teaching Activities

Present

- [Bioinformatics](#) (L, P; EN) – for Master students
- [Analysis of Omics data](#) (P; EN) – for Master students. The course has also been included in the [CHARM-EU Course Catalogue](#).
- Bioinformatic seminars (L; EN) – for PhD students
- [Advanced R programming](#) (P; EN) – for Master students
- Phylogenetics (L, P; EN)

Formerly

- Introduction to Bioinformatics (L; HU) – for Bachelor students
- Genetic lab. practices (selected P; EN, HU) – for Bachelor students
- Genomics (selected L; EN, HU) – for Master students
- Molecular evolution (selected L; HU) – for Master students
- Evolutionary biology (selected L; HU) – for Master students
- Discrete mathematical methods in biology (L, P; HU) – for Master and PhD students

Course Book

- Genetics Exercises: Chapter 7 – Bioinformatics: Genetic Disease Recognition and Detection (HU)

Supervising & Mentoring

- [The personal site at the website of Hungarian Doctoral Council](#)
- **At present:** Co-supervising 2 PhD students, supervising 2 Master students, and 1 Scientific Student Association student
- **Graduated students:** 4 co-supervised PhD, 6 Master, 14 Bachelor, and 9 Scientific Student Association students
- **Mentoring:** 1 with Support for summer internships for Hungarian students studying abroad grant, [Szent-Györgyi Mentoring Program](#) mentoring

Main Workshops

As Lecturer

- *ELTE Carpathian Basin Hungarian Summer University*, 2022: Genetic analysis of the virus variants determining the COVID epidemic in Hungary
- *Practical Course on Next Generation Sequencing for Population Genetics and Experimental Evolution*, 2014 Vet-Med Uni Vienna, A: Practicals about RNA-seq data analysis

As Participant

- *EMBO Training: Laboratory Leadership Course*, 2024, Budapest, H
- *An R Reproducibility Toolkit for the practical researcher*, 2022, online

- *8th International Course in Microbial Ecology – Microbiome Metagenome Analysis*, 2017, CNR-ISE, Verbania, I
- *EMBO course: Bioinformatics and Comparative Genome Analyses*, 2011, Inst. Pasteur Paris, F
- *Computational Phyloinformatics Course*, 2008, Duke Univ., Durham, NC, USA
- *Workshop on Molecular Evolution*, 2006, Marine Biological Lab., Woods Hole, MA, USA

Memberships

- [Hungarian Society for Bioinformatics](#): 2016 – **member of the directory board**; 2006 – member
- Hungarian Academy of Sciences, Interdepartmental Scientific Committee on Bioinformatics: 2021 – **committee member**
- Hungarian node of the [Elixir Europe](#): 2023 – **lead researcher**
- [Institute of Scientific Computing, Society](#) (SciComp): 2024 – member
- Public Body of the Hungarian Academy of Sciences: 2013 – member (ID: 31344)

Languages

- Hungarian – mother tongue
- English – C1 level
- Italian – A1 level

Areas of Interest

- Bioinformatics
- Evolutionary Biology
- Antibiotic Resistance
- Comparative genomics
- Molecular phylogenetics
- Metagenomics
- Transcriptomics
- Transcriptional regulation
- Data analysis

Professional Skills

- Developing and using different bioinformatic methods, software and pipelines.
- *R* programming language – professional level
- *Linux Shell* scripting – intermediate level

Editing, Reviewing, & Organizing Conferences

- Topic editor in [Frontiers in Systems Biology](#)
- Reviewer in journals: *Brief. Bioinformatics* (3); *Evol. Biol.* (1); *Genome Biol. Evol.* (1); *J. Math. Chem.* (4); *Mol. Ecol.* (1); *Mol. Phylogenetics Evol.* (1); *Sci. Rep.* (1); *Opusc. Zool.* (1); *Plos One* (2)
- Reviewing: PhD Theses (4), Grant proposals: Hungarian Scientific Research Fund Grant (4)
- Conference organization as a member of the scientific organizing committee: [The Joint Conference of the Hungarian Physiological Society, the Hungarian Biophysical Society, the Hungarian Society for Microcirculation and Vascular Biology, and the Hungarian Bioinformatics Society](#), Sep. 2–5, 2025, Szeged, H

Popularising Science

- Presenting at the Festival of ELTE: Global map of evolutionary dependencies between antibiotic resistance and virulence genes in *E. coli*. 2022, Budapest, H
- Creating a website for The genomic epidemiology of SARS-CoV-2 in Hungary
- Presenting at Capital of Science “Tudományok Fővárosa”: The genomic epidemiology of SARS-CoV-2 in Hungary, 2020, Budapest, H
- Presenting at Night of Scientists “Kutatók Éjszakája”, 2018 and 2020

Scientific Websites

- Supervising the creation of the [TFLink](#), a transcription factor - target gene database.
- Supervising the creation of the [mulea](#) and the [muleaData](#) *R* packages for functional enrichment analysis and dataset.
- Supervising the creation of the [treepruner](#) *R* and *Python* packages for pruning too long branches of phylogenetic trees.

Publications

- Nr. of published papers: **28** (D1: **18** + Q1: **5**)
- Nr. of first, last or corresponding author publications: **8**
- Cumulative impact factor of first, last or corresponding author publications: **47.22**
- Cumulative impact factor of all publications (IF): **234.26**
- Independent citations of all publications (IC): **789**
- h-index: **17**

Preprints

- Zsichla L, Adravec L, Müller D, Lemey P, Lakatos Á, **Ari E**, Kusejko K, Kouyos R, Szilávik J, Lakatos B, Áy É & Müller V (2025) Molecular epidemiology of HIV-1 in Hungary: an evolving contact zone of colliding virus subtypes *Frontiers in Microbiology*, under review.

Published

- Balogh GM, Koncz B, Asztalos L, **Ari E**, Papp B, Szebeni GJ, Gémes N, Pál C & Manczinger M (2025) [C>U mutations generate immunogenic peptides in SARS-CoV-2](#). *Nature Communications*, 16: 10156. **D1, IF: 15.70, IC: 0**
- Daruka L, Czikkely MS, Szili P, Farkas Z, Balogh D, Maharramov E, Vu TH, Sipos L, Vincze BD, Grézel G, Juhász Sz, Dunai A, Daraba A, Számel M, Sári T, Stirling T, Vásárhelyi BM, **Ari E**, Christodoulou C, Manczinger M, Enyedi MZs, Jaksa G, van Houte S, Pursey E, Papp CG, Szilovics Z, Pintér L, Haracska L, Gácsér A, Kintses B, Papp B & Pál Cs (2025) [ESKAPE pathogens rapidly develop resistance against antibiotics in development](#). *Nature Microbiology*, 10(2): 313-331. **D1, IF: 20.50, IC: 42**
